Program Performance is Priority One!™

Ground Forces Sustainment

Northrop Grumman provides critical logistics and ground vehicle sustainment services with locations at the U.S. Army's premier training centers: the National Training Center at Fort Irwin, Calif., and the Joint Readiness Training Center at Fort Polk, La. Maintaining a fleet of more than 7,000 wheeled and tracked vehicles at these two locations, they both exceed U. S. Army readiness requirements and maintain a 99% first-pass quality rating.

A proven global company, Technical Services understands how to deliver in a forward-deployed environment. Northrop Grumman has more than 30 years of support to the Saudi Arabian National Guard (SANG) and has been the hallmark of support to allies of the United States, through its Vinnell Arabia LLC unit. Northrop Grumman sustains a fleet of more than 3,000 Saudi military ground vehicles and also trains and advises a key ally to assume ownership in logistically sustaining their own equipment.

Furthermore, the Directorates of Logistics (DoL) at Fort Polk and Fort Eustis, Va., rely on Northrop Grumman Technical Services as a critical partner supporting all maintenance, supply and transportation functions critical to the war-fighting Army units and other installation tenants.

Key Capabilities:

- Field and Sustainment Maintenance for Military Ground Vehicles and Unit Equipment
